

ABSTRACT OF THE DISCLOSURE

A plaster comprising a styrene-isoprene-styrene block copolymer 10-40 wt%, a rosin-based resin 5-30 wt%, a plasticizer 20-70 wt%, polyisobutylene 6-40 wt%, an antioxidant 0.1-5 wt%, and felbinac as a medicinally effective component 1.1-10 wt%, wherein the plaster does not contain crotamiton which is a solubilizer for the felbinac, the felbinac is uniformly dispersed in a semi-solubilized state in the plaster, wherein solubilized felbinac and microcrystalline felbinac coexist in the plaster, and a thickness of the plaster is 50-300 $\mu$ m.
